## Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### *Claim Rejections - 35 USC § 102*

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 35-36 are rejected under 35 U.S.C. 102(e) as being anticipated by Melbye (USPN 6,233,109).

RE claims 35-36, given claims 35-36 are product-by-process claims they do not necessarily inherent the limitation by which the apparatus is made. Because the end process is a data storage device, Melbye discloses a data storage device (or magnetic tape drive in the abstract and col. 1, lines 8-10)

### *Allowable Subject Matter*

3. Claims 1-34 are allowed.
4. The following is an examiner's statement of reasons for allowance:

RE claim 1, the prior art of record, and in particular Shrinkle (USPN 5,585,974), fails to teach or suggest a method comprising the steps of: (a) selecting a target error rate for recording data during the write process, for one or more of the data storage devices; and (b) for each data storage device, determining a dither value for each head in the data storage device, wherein for each head, using the corresponding dither value for the write process essentially provides said selected target error for all the heads.

Art Unit: 2651

RE claims 15 and 23, the prior art of record, and in particular Shrinkle (USPN 5,585,974), fails to teach or suggest a method and associated an apparatus comprising the steps of: (a) selecting a target error rate for recording data during the write process, for one or more of the data storage devices; and (b) for each data storage device, determining the amount by which to artificially degrade the read signal during the write process for each head in the data storage device to essentially provide said selected target error rate for all the heads.

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
